Automation & Tools: Macro Development, Reporting Automation, Data Processing, TXT Import/Export, Pivot Tables, Advanced Excel Formula

PROFESSIONAL EXPERIENCE

PT. Bank Maspion Indonesia Tbk | Credit Reporting | Mar 2022 – Aug 2026

- Prepared, validated, and managed 50,000+ credit records for regulatory and internal reporting, ensuring data accuracy and submission readiness.
- Developed Excel VBA automation solutions for data reconciliation, validation, Excel/TXT import and export, file processing, and recurring reporting workflows, improving data accuracy and reducing manual effort.
- Automated previously manual copy-paste, data entry, filtering, and validation processes using Excel VBA, reducing reporting processing time from 8 hours to 2 hours (75% reduction).
- Developed a data reconciliation process to identify missing and inconsistent records, recover incomplete information, and improve data completeness and accuracy for regulatory reporting submissions.

PT. Bank Pan Indonesia Tbk | Branch Support | Mar 2018 – Mar 2022

- Streamlined weekly disbursement and loan settlement reporting using advanced Excel formulas, reducing report preparation time from 4 days to 1 day (75% reduction) while supporting accurate branch performance monitoring.
- Analyzed marketing performance covering pipeline, monthly disbursement, loan settlement, and NPL indicators.
- Developed performance presentations and reports for KCU and supporting branch offices to assist management decision-making.
- Supported sales target planning and forecasting for marketing teams based on historical performance and business data.
- Prepared management reporting and performance monitoring materials for weekly and monthly reviews.
- Supported the preparation of RBB business planning for annual business planning and budgeting activities.

PT. Telkom Indonesia | IT Support Intern | Aug 2017 – Sep 2017

- Supported an internal project to build a web-based application for monitoring the distribution of Telkom devices in Sidoarjo.
- Supported PHP and MySQL database-related development activities.

ORGANIZATIONAL EXPERIENCE

Computer Systems Student Association | Vice Chair Student Resource Development Division | Mar 2022 – Aug 2026

- Supported the division chair in coordinating and managing student resource development activities, ensuring effective execution of programs and collaboration across the division.

Catholic Spiritual Activity Unit | Faculty Coordinator | Aug 2013 – Sep 2014

- Coordinated Catholic students across the Faculty of Computer Science in organizing religious activities, developing educational materials, and facilitating programs focused on spiritual development and community engagement.

New Student Admission Committee Faculty of Computer Science | Head of Logistics & Catering Division | Sep 2013

- Managed catering operations for the new student admission program, including vendor coordination, meal distribution, resource planning, and expense reporting.

Computer System Student Association Formation Committee | Coordinator, Catering Division | Feb 2013 – Des 2013

- Coordinated catering logistics throughout the student association formation process, overseeing resource allocation, distribution schedules, vendor communication, and administrative documentation.

EDUCATION

Universitas Brawijaya : Bachelor of Computer Systems | 2012 – 2017
SMAN 1 Madiun : Science Major | 2009 – 2012

SELECTED ACHIEVEMENT

- Automated previously manual copy-paste, data entry, filtering, and validation processes using Excel VBA, reducing reporting processing time from 8 hours to 2 hours (75% reduction).
- Streamlined weekly disbursement and loan settlement reporting using advanced Excel formulas, reducing report preparation time from 4 days to 1 day (75% reduction) while supporting accurate branch performance monitoring.
